

Assignment No	18
Title	Create class component to handle images
Objective	A) Product Image Component to add image statically from Class Component B) ProductImage2 Component to add image dynamically using this.props.img in Class Component and passing images from index.js or app.js
Roll No	MCA2511

A) Product Image Component to add image statically from Class Component.

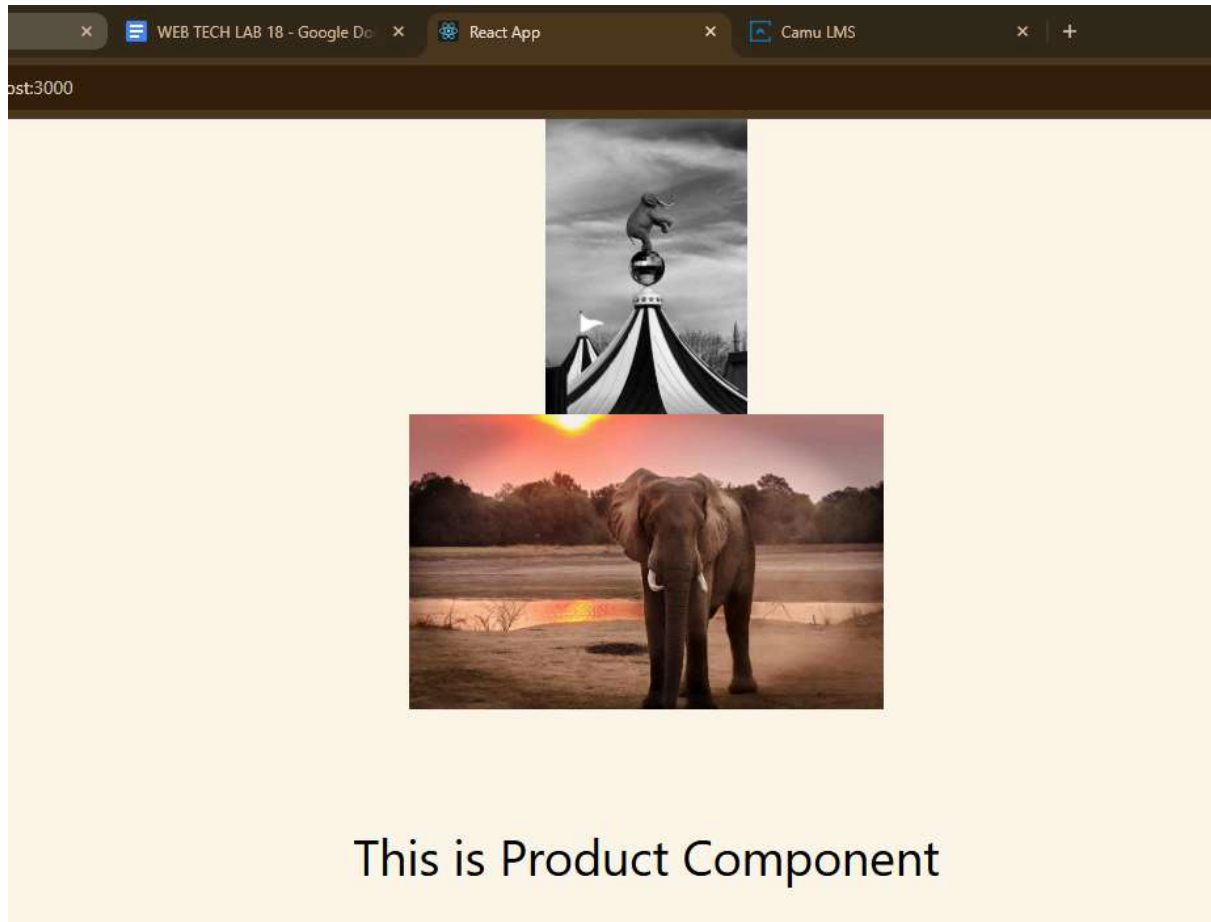

ProductImg.js

```
import React, { Component } from 'react';
import pImg1 from './p1.jpg';
import pImg2 from './p2.jpg';

export class ProductImg extends Component {
  render()
  {
    return (
      <div className='productImg'>
        <img src={pImg1} alt="PImage"></img>
        <img src={pImg2} alt="PImage"></img>
        <br/>
        <p>This is Product Component</p>
      </div>
    );
  }
}

export default ProductImg;
```

Output:

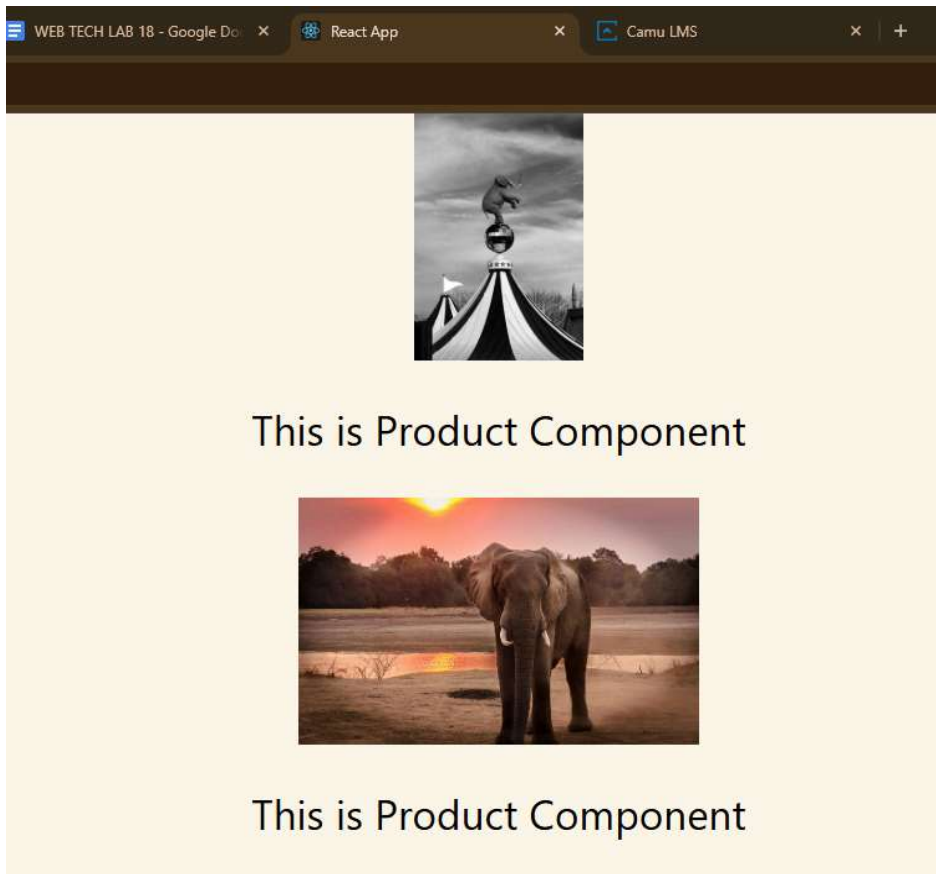

B) ProductImage2 Component to add image dynamically using `this.props.img` in Class Component and passing images from `index.js` or `app.js`

ProductImg2.js

```
import React, {Component} from 'react';
export class ProductImg2 extends Component {
  render ()
  {
    return (
      <div className='productImg'>
        <img class="img2" alt='this' src={this.props.in}></img>
        <p>This is Product Component</p>
      </div>
    );
  }
}

export default ProductImg2;
```

Output:

index.js

```
import React from 'react';
import ReactDOM from 'react-dom/client';
import './index.css';
import App from './App';

import './App.css';
import ProductImg from './Components/ProductImg';
import pImg1 from './Components/p1.jpg';
import pImg2 from './Components/p2.jpg';
import ProductImg2 from './Components/ProductImg2';

import reportWebVitals from './reportWebVitals';
const root = ReactDOM.createRoot(document.getElementById('root'));
root.render(
  <React.StrictMode>
    <ProductImg></ProductImg>
    <ProductImg2 in={pImg1}></ProductImg2>
    <ProductImg2 in={pImg2}></ProductImg2>
  </React.StrictMode>
);

// If you want to start measuring performance in your app, pass a
function
// to log results (for example: reportWebVitals(console.log))
// or send to an analytics endpoint. Learn more:
https://bit.ly/CRA-vitals
reportWebVitals();
```

App.css

```
/* ProductImg.js */
.productImg {
  display: flex;
  flex-direction: column;
  align-items: center;
  justify-content: center;
  font-size: 50px;
}

.productImg img {
  height: 300px;
```

```
}  
  
.img {  
  width: 25%;  
  display: inline-block;  
}
```
