

Assignment No	19
Title	Create a Form using React which has
Objective	User Name using text box Comments using textarea Course selected using select
Roll No	MCA2511

Create a Form using React which has

1. User Name using text box
2. Comments using textarea
3. Course selected using select

[Form.js](#)

```
import React, {Component} from 'react'
// import './Form.css'
export class Form extends Component {
  constructor(props) {
    super(props)
    this.state = {
      username: '',
      comments: '',
      topic: 'react'
    }
  }
  handleUsernameChange = (e) =>
  {this.setState({username: e.target.value})}
  handleCommentChange = (e) =>
  {this.setState({comments: e.target.value})}
  handleTopicChange = (e) =>
  {this.setState({topic: e.target.value})}
  handleSubmit = (e) =>
  {alert(`${this.state.username} ${this.state.comments}`)}

  render()
  {
```

```
    return (
      <form class="form-container" onSubmit={this.handleSubmit}>
        <div>
          <label>Username</label>
          <input type='text' value={this.state.username}
onChange={this.handleUsernameChange} />
          <br></br>
          <br></br>
        </div>
        <div>
          <label>Comments</label>
          <textarea type='text' value={this.state.comments}
onChange={this.handleCommentChange} />
          <br></br>
          <br></br>
        </div>
        <div>
          <label>Select Topic</label>
          <select type='text' value={this.state.topic}
onChange={this.handleCommentChange}>
            <option value='react'>React</option>
            <option value='angular'>Angular</option>
            <option value='vue'>Vue</option>
          </select>
          <br></br>
          <br></br>
        </div>
        <div>
          <button type='submit'>Submit</button>
        </div>
      </form>
    )
  }
}

export default Form;
```

App.css

```
* {
  text-align: center;
}

input, textarea, select {
  font-size: 20px;
  border: 0px solid black;
  border-radius: 30px;
  padding: 10px;
  margin: 10px;
  background: rgb(183, 183, 255);
  cursor: pointer;
}

button {
  font-size: 20px;
  border: 0px;
  border-radius: 10px;
  padding: 10px;
  margin: 10px;
  background: rgb(155, 0, 0);
  color: white;
  cursor: pointer;
}
```

[index.js](#)

```
import React from 'react';
import ReactDOM from 'react-dom/client';
import './index.css';
import App from './App';

import './App.css';
import ProductImg from './Components/ProductImg';
import pImg1 from './Components/p1.jpg';
import pImg2 from './Components/p2.jpg';
import ProductImg2 from './Components/ProductImg2';
import Form from './Components/Form';

import reportWebVitals from './reportWebVitals';
const root = ReactDOM.createRoot(document.getElementById('root'));
```

```
root.render(  
  <React.StrictMode>  
    <Form></Form>  
  </React.StrictMode>  
) ;  
  
// If you want to start measuring performance in your app, pass a  
function  
// to log results (for example: reportWebVitals(console.log))  
// or send to an analytics endpoint. Learn more:  
https://bit.ly/CRA-vitals  
reportWebVitals();
```

Output:

Username
